

## I Will Not Be Conquered

### Hook

I will not be conquered  
I will not be caged  
I'll live how I want  
I'll choose my own way  
I am not a monster  
I am not afraid  
I will be disaster  
Like a hurricane  
I am not predator  
I am prey  
But you can't kill my words  
I'm the voice of today

### Verse 1

I'll say it in my language pastahowin  
Means what goes around comes back again  
And I believe in that look around cant you tell  
Things taking effect way before 2012  
Young people stand up to rock the boat  
Don't wanna sink into the system they got to float  
And if you aren't down you'd better come on in  
And if you aren't a part you'd better learn how to swim  
Young people you know that you are the proof  
The link to the past represent the truth  
Don't lose that cause that's all we got  
Without you we'll stop tryna connect the dots  
I feel you ya this road is rough  
So rough that some just stop and give up  
And my heart breaks, it breaks everyday  
My battle is based on my people's pain

### Hook

I will not be conquered  
I will not be caged  
I'll live how I want  
I'll choose my own way  
I am not a monster  
I am not afraid  
I will be disaster  
Like a hurricane  
I am not predator  
I am prey  
But you can't kill my words

Im the voice of today

Verse 2

I don't care if you like me I don't even try  
My circle includes those willing to die  
Theirs a war is going on outside  
But you can't see it unless you open your eyes  
Where words are weapons deadly weapons  
Suicidal syllables submerged in sentences  
Exploding explanations kill the questions  
Listen real hard learn the lessons  
Protect your rights, your way of life  
For the young and the old who cannot fight  
Don't stop think back think about it for a minute  
This is not the end this is only the beginning  
And I wont stop this is my only way  
And it don't stop this is the only way  
And we won't stop this is the only way

Hook

I will not be conquered

Bridge and Verse Three

As I crouch in my oskapeeos kneel  
My senses separate the fake from the real  
And I know that my time has come  
To fix to mend whats come undone  
As I reach up in my prayer stance  
My offering wet from the sweat in my hands  
and I know my time has come  
to give thanks for another day in the sun  
when I'm out holding my son's hand  
his eyes scan my eyes scanning the land  
and we walk as a song lyrics to beats  
slow stride quick shuffle on the cool concrete

I tell him that he'll have a place  
I mean I live for him so he'll have a place  
And I would die for him so that he'll have a place  
I promise that you'll have a place

### Hook

I will not be conquered  
I will not be caged  
Ill live how I want  
I'll choose my own way  
I am not a monster  
I am not afraid  
I will be disaster  
Like a hurricane  
I am not predator  
I am prey  
But you can't kill my words  
Im the voice of today

### Outro

I am not a criminal  
Iam not enraged  
I just don't like the system  
And ill tell that to your face  
Things need to change  
But whose gonna do it?
